Publication No. US20050153916A1
GENERAL INFORMATION:
APPLICANT: Sirna Therapeutics, Inc.
APPLICANT: McSwiggen, James
APPLICANT: Beigelman, Leonid
TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase Gene
TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)
CURRENT APPLICATION NUMBER: US/10/923,330
CURRENT FILING DATE: 2004-08-20

GENERAL INFORMATION:

APPLICANT: Sirna Therapeutics, Inc.

APPLICANT: McSwiggen, James

FILE OF INVENTION: Expression Using Short Interfering RNA (sinA)

FILE REFERENCE: 400/209 (MHHBO)-708-C)

FRICK FILING DATE: 2004-08-20

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Sequence 543, Application US/10923330

Sequence 543, Application US/10923330

Publication No. US20050153916A1

GENERAL INFORMATION:

APPLICANT: Sirna Therapeutics, Inc.

APPLICANT: McSwiggen, James

APPLICANT: Beigelman, Leonid

TILLE OF INVENTION: RNA INterference Mediated Inhibition of Telomerase Gene

TILLE OF INVENTION: Expression Using Short Interfering RNA (siNA)

FILE REFERENCE: 400/209 (MBHB02-708-C)

CURRENT PILING DATE: 2004-08-20

PRIOR APPLICATION NUMBER: PCT/US03/04088

Publication No. US20050153916A1
GENERAL INFORMATION:
APPLICANT: Sirna Therapeutics, Inc.
APPLICANT: Beigelman, Leonid
APPLICANT: Beigelman, Leonid
TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase Gene
TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)
CURRENT APPLICATION NUMBER: US/10/923,330
CURRENT FILING DATE: 2004-08-20

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          RESULT 125

US-10-923-330-59/c

i Sequence 59, Application US/10923330

i Publication No. US20050153916A1

i GENERAL INFORMATION:

APPLICANT: Sirna Therapeutica, Inc.

APPLICANT: Beigelman, Leonid

TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase Gene

TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)

FILE REFERENCE: 400/209 (MBHB02-708-C)

CURRENT FILING DATE: 2004-08-20

PRIOR PLICATION NUMBER: PCT/US03/04088

PRIOR PLICATION NUMBER: BC 60/396,600

PRIOR PLICATION NUMBER: US 60/396,600

Sequence 562, Application US/10923330

Publication No. US20050153916A1

GENERAL INFORMATION:

APPLICANT: Sirna Therapeutics, Inc.

APPLICANT: Beigelman, Leonid

TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase Gene

TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase of TITLE OF INVENTION: RAY INTERFERENCE: 400/209 (MBHB02-708-C)

TITLE OF INVENTION: Expression Using Short Interfering RNA (sinA)

FILE REFERENCE: 400/209 (MBHB02-708-C)

Sequence 563, Application US/10923330

Publication No. US20050153916A1

GENERAL INFORMATION:
APPLICANT: Sirna Therapeutics, Inc.
APPLICANT: Beigelman, Leonid
TITLE OF INVENTION: RNA Interference Mediated Inhibition of Telomerase Gene
TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)
FILE REPERBACE: 400/209 (MHBD2-708-C)
CURRENT APPLICATION NUMBER: US/10/923,330
CURRENT APPLICATION NUMBER: US/10/923,330
FRIOR APPLICATION NUMBER: DCT/US03/04088
FRIOR APPLICATION NUMBER: DCT/US03/04088
FRIOR PILING DATE: 2004-05-24
FRIOR PILING DATE: 2002-07-17

APPLICANT: Sirna Therapeutics, Inc.
APPLICANT: McSwiggen, James
APPLICANT: Beigelman, Leonid
TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)
FILE REPERENCE: 400/209 (MBHB02-708-C)
CURRENT APPLICATION NUMBER: US/10/923, 330
CURRENT FILING DATE: 2004-08-20
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            OTHER INFORMATION: Description of Artificial Sequence: siNA sense region

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    RESULT 130-570/C

Sequence 570, Application US/10923330

Fablication No US20050153916A1

GENERALI INFORMATION:
APDLICAMY: Star Therapeutics, Inc.
APDLICAMY: Birar Therapeutics, Inc.
TITLE OF INVENTION: Expression Using Short Interfering RNA (siNA)
CURRENT APDLICATION NUMBER: 904-06-20

PRIOR FILING DATE: 2004-06-24
PRIOR FILING DATE: 2004-05-24
PRIOR PELLOR NUMBER: US 10/826, 966
PRIOR FILING DATE: 2004-05-11
PRIOR PELLOR OF APDLICATION NUMBER: US 10/720, 448
